Address Lindenstraat 17-1 Amsterdam 1015KV, The Netherlands

Qualifications

Bachelor of Multimedia (Internet Computing)
Griffith University
Brisbane, Australia
Graduated 2003

LPIC-1 Linux Professional Institute Certification

Strengths

- Software development - 5 years experience developing software applications, primarily web applications and developer tools
- Developing with a variety of languages and platforms (PHP, Python, Shell, C, .NET, J2EE, autotools, ...)
- Testing and quality control
- Experience with a variety of project processes and roles
- Distributed and centralized version control systems
- Issue/ticketing systems and system maintenance and support
- Passion for open source software and the GNU/Linux platform, and particularly embedded systems
- Self motivated, eager and willing to learn

Experience

May 2006 – Present

Software Developer
Basesoft Solutions
<http://www.basesoft.nl/>

Amsterdam, Netherlands

Main Responsibilities

- Web application design and development
- Design and build of load balanced, redundant web and database infrastructure
- Testing, review and auditing
- System administration of internal and customer facing systems
- Internal development tools
- Development planning and management
- Product maintenance and support

December 2003 - December 2005

Developer/Lead Developer
Sputnik Agency
<http://www.sputnikagency.com>

Melbourne, Australia

Main Responsibilities

- Web application development (PHP, J2EE)
- Development and deployment of network software, including SMS and specialized content delivery mechanisms, payment gateway integration and multimedia content management
- Web based game design and development
- System administration of development and deployment servers, and the creative studio
- Project life cycle management

December 2001 - December 2003

Web and multimedia developer
Brisbane, Australia

I, along with two fellow students from university started a multimedia production company, Twofish Media. We had a variety of small clients and produced custom multimedia presentations, Flash based websites, and small content management systems. I was involved in all aspects of the company.

December 2001 - Present

I enjoy software development as a hobby, not only my job. I have been a user/contributor for several open source software communities ranging from Linux distributions through to programming languages and embedded systems.
